

Procell

Primary Cell Isolation Kits

Empowering Primary Cell Research, Overcoming Isolation Challenges

Primary cells, derived directly from living tissues, offer unparalleled physiological relevance for various research applications, such as drug screening, disease modeling, and personalized medicine. However, isolating and cultivating primary cells is challenging for researchers in the fields.

Primary Cell Research Key Challenges

【Lack of Isolation Experience】

Primary cell isolation is complicated, requiring extensive experience.

- Low reproducibility and inconsistent results
- Worsening sample instability may lead to high costs
- Primary cell isolation requires meticulous attention to detail

【Complex Reagent Preparation】

Tedious reagent preparation, unpredictable variables.

- Laborious formulation adjustments
- Error-prone concentrations, contamination risks
- Tedious reagent preparation can often slow progress

【High Procurement Costs】

Relying on purchased cells can be costly, restrictive, and inflexible.

- Limited budgets impede experiments
- Batch variability affects consistency
- Limited adaptability with respect to personalized models

Procell continually refines its isolation processes to deliver high-efficiency, user-friendly primary cell isolation kits, backed by over a decade of expertise in primary cell isolation.

Product Features

- **Boost Cell Yield and Viability:** Reduce barriers to primary cell isolation
- **Standardized Protocols:** Effectively minimize batch-to-batch variability
- **All-in-one Reagent Kits:** Pre-optimized reagents for easy, accurate isolation and culture
- **Research-ready Performance:** Confidently tackle laboratory and industry challenges
- **Expert-led Support:** Professional, on-demand guidance for primary cell isolation

Applicable Range

Brain

Brain Microvascular Endothelial Cells
Astrocytes
Brain Microvascular Pericytes
Cortical Neurons
Neural Stem Cells

Cardiac

Cardiac Microvascular Endothelial Cells
Cardiac Fibroblasts
Cardiomyocytes

Vascular

Brain Artery Vascular Smooth Muscle Cells
Pulmonary Great Artery Smooth Muscle Cells
Saphenous Vein Smooth Muscle Cells
Aortic Smooth Muscle Cells
Pulmonary Great Artery Endothelial Cells
Aortic Endothelial Cells

Bone Marrow

Bone Marrow-Derived Endothelial Progenitor Cells
Bone Marrow-Derived Macrophages
Bone Marrow Mononuclear Cells
Bone Marrow Monocytes

Liver

Liver Sinusoidal Endothelial Cells
Hepatic Stellate Cells
Hepatic Parenchymal Cells
Kupffer Cells

Cartilage

Temporomandibular Joint Chondrocytes
Intervertebral Disc Annulus Fibrosus Cells
Articular Chondrocytes
Acetabular Chondrocytes

Brain

Product Name	Cat. No.	Size
Rat Brain Microvascular Endothelial Cell Isolation and Culture Kit	P-CA-601	3 Tests/10 Tests
Rat Brain Microvascular Pericyte Isolation and Culture Kit	P-CA-602	3 Tests/10 Tests
Rat Neural Stem Cell Isolation and Culture Kit	P-CA-603	3 Tests/10 Tests
Rat Cortical Neuron Isolation and Culture Kit	P-CA-604	3 Tests/10 Tests
Rat Astrocyte Isolation and Culture Kit	P-CA-605	3 Tests/10 Tests
Mouse Brain Microvascular Endothelial Cell Isolation and Culture Kit	P-CA-701	3 Tests/10 Tests
Mouse Brain Microvascular Pericyte Isolation and Culture Kit	P-CA-702	3 Tests/10 Tests
Mouse Neural Stem Cell Isolation and Culture Kit	P-CA-703	3 Tests/10 Tests
Mouse Cortical Neuron Isolation and Culture Kit	P-CA-704	3 Tests/10 Tests
Mouse Astrocyte Isolation and Culture Kit	P-CA-705	3 Tests/10 Tests

► Isolation Performance (Partial)

	Rat Brain Microvascular Endothelial Cells (CD31)	Rat Astrocytes (GFAP)	Mouse Brain Microvascular Pericytes (α -SMA)	Mouse Cortical Neurons (β -Tubulin)
Microscopic View of Cell Morphology				
Immunofluorescence Identification				

Vascular

Product Name	Cat. No.	Size
Rat Aortic Endothelial Cell Isolation and Culture Kit	P-CA-606	3 Tests/10 Tests
Rat Aortic Smooth Muscle Cell Isolation and Culture Kit	P-CA-607	3 Tests/10 Tests
Rat Pulmonary Great Artery Endothelial Cell Isolation and Culture Kit	P-CA-608	3 Tests/10 Tests
Rat Pulmonary Great Artery Smooth Muscle Cell Isolation and Culture Kit	P-CA-609	3 Tests/10 Tests
Rat Saphenous Vein Smooth Muscle Cell Isolation and Culture Kit	P-CA-610	3 Tests/10 Tests
Rat Brain Artery Vascular Smooth Muscle Cell Isolation and Culture Kit	P-CA-611	3 Tests/10 Tests

► Isolation Performance (Partial)

	Rat Aortic Endothelial Cells (CD31)	Rat Pulmonary Great Artery Endothelial Cells (CD31)	Rat Pulmonary Great Artery Smooth Muscle Cells (α -SMA)	Rat Saphenous Vein Smooth Muscle Cells (α -SMA)
Microscopic View of Cell Morphology				
Immunofluorescence Identification				

Liver

Product Name	Cat. No.	Size
Rat Hepatic Stellate Cell Isolation and Culture Kit	P-CA-612	3 Tests/10 Tests
Rat Kupffer Cell Isolation and Culture Kit	P-CA-613	3 Tests/10 Tests
Rat Liver Sinusoidal Endothelial Cell Isolation and Culture Kit	P-CA-614	3 Tests/10 Tests
Rat Hepatic Parenchymal Cell Isolation and Culture Kit	P-CA-615	3 Tests/10 Tests
Mouse Hepatic Parenchymal Cell Isolation and Culture Kit	P-CA-707	3 Tests/10 Tests
Mouse Kupffer Cell Isolation and Culture Kit	P-CA-708	3 Tests/10 Tests
Mouse Liver Sinusoidal Endothelial Cell Isolation and Culture Kit	P-CA-709	3 Tests/10 Tests

Isolation Performance (Partial)

	Rat Hepatic Stellate Cells (α -SMA)	Rat Kupffer Cells (CD68)	Rat Liver Sinusoidal Endothelial Cells (CD31)	Mouse Hepatic Parenchymal Cells (CK-18)
Microscopic View of Cell Morphology				
Immunofluorescence Identification				

Cardiac

Product Name	Cat. No.	Size
Rat Cardiac Microvascular Endothelial Cell Isolation and Culture Kit	P-CA-620	3 Tests/10 Tests
Rat Cardiomyocyte Isolation and Culture Kit	P-CA-621	3 Tests/10 Tests
Rat Cardiac Fibroblast Isolation and Culture Kit	P-CA-622	3 Tests/10 Tests
Mouse Cardiac Microvascular Endothelial Cell Isolation and Culture Kit	P-CA-714	3 Tests/10 Tests
Mouse Cardiomyocyte Isolation and Culture Kit	P-CA-715	3 Tests/10 Tests
Mouse Cardiac Fibroblast Isolation and Culture Kit	P-CA-716	3 Tests/10 Tests

Isolation Performance (Partial)

	Rat Cardiac Microvascular Endothelial Cells (CD31)	Rat Cardiac Fibroblasts (Vimentin)	Mouse Cardiomyocytes (α -SCA)	Mouse Cardiac Fibroblasts (Vimentin)
Microscopic View of Cell Morphology				
Immunofluorescence Identification				

Bone Marrow

Product Name	Cat. No.	Size
Rat Bone Marrow-Derived Endothelial Progenitor Cell Isolation and Culture Kit	P-CA-616	3 Tests/10 Tests
Rat Bone Marrow-Derived Macrophage Isolation and Culture Kit	P-CA-617	3 Tests/10 Tests
Rat Bone Marrow Monocyte Isolation and Culture Kit	P-CA-618	3 Tests/10 Tests
Rat Bone Marrow Mononuclear Cell Isolation and Culture Kit	P-CA-619	3 Tests/10 Tests
Mouse Bone Marrow-Derived Endothelial Progenitor Cell Isolation and Culture Kit	P-CA-710	3 Tests/10 Tests
Mouse Bone Marrow-Derived Macrophage Isolation and Culture Kit	P-CA-711	3 Tests/10 Tests
Mouse Bone Marrow Monocyte Isolation and Culture Kit	P-CA-712	3 Tests/10 Tests
Mouse Bone Marrow Mononuclear Cell Isolation and Culture Kit	P-CA-713	3 Tests/10 Tests

Isolation Performance (Partial)

	Rat Bone Marrow-Derived Endothelial Progenitor Cells (CD34)	Rat Bone Marrow-Derived Macrophages (CD68)	Rat Bone Marrow Monocytes (CD68)	Mouse Bone Marrow-Derived Macrophages (CD68)
Microscopic View of Cell Morphology				
Immunofluorescence Identification				

Cartilage

Product Name	Cat. No.	Size
Rat Articular Chondrocyte Isolation and Culture Kit	P-CA-623	3 Tests/10 Tests
Rat Acetabular Chondrocyte Isolation and Culture Kit	P-CA-624	3 Tests/10 Tests
Rat Temporomandibular Joint Chondrocyte Isolation and Culture Kit	P-CA-625	3 Tests/10 Tests
Rat Intervertebral Disc Annulus Fibrosus Cell Isolation and Culture Kit	P-CA-626	3 Tests/10 Tests
Mouse Articular Chondrocyte Isolation and Culture Kit	P-CA-717	3 Tests/10 Tests
Mouse Intervertebral Disc Annulus Fibrosus Cell Isolation and Culture Kit	P-CA-718	3 Tests/10 Tests

Isolation Performance (Partial)

	Rat Temporomandibular Joint Chondrocytes (Collagen II)	Rat Intervertebral Disc Annulus Fibrosus Cells (Collagen I)	Mouse Articular Chondrocytes (Collagen II)	Mouse Intervertebral Disc Annulus Fibrosus Cells (Collagen I)
Microscopic View of Cell Morphology				
Immunofluorescence Identification
